Dear Sirs,

Re: Proposed Electric Power Scheme – Glinsk. Co Mayo

We understand that the application relating to the above scheme has not yet been fully formulated hence, we feel at this crucial stage, negotiations between Belderrig and yourselves should take place to satisfy all requirements from both parties. When all conditions have been met, to the best of our knowledge, we would agree in principle to this project and there would be no objections on our part when you apply for the appropriate authority approvals.

We look forward to hearing from you in the near future.

Yours faithfully,
